SUMMARY

Frontend Developer specializing in React.js with hands-on experience building responsive and API-driven web applications. Developed real-world projects including an e-commerce platform and GitHub profile explorer. Focused on scalable UI architecture, performance optimization, and clean user experience.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap

State Management: Redux Toolkit, Context API, React Hooks

APIs: REST APIs, Axios, Fetch, Async/Await

Tools: Git, GitHub, Vite, npm

PROJECTS

Ecommerce Frontend (Minimart)

[Live](#) — [GitHub](#)

- Developed a responsive e-commerce application using React with dynamic listings and cart functionality
- Implemented real-time cart updates using React Hooks for better user interaction
- Designed reusable UI components for product cards, pricing, and ratings
- Optimized rendering performance using component modularization and conditional rendering

GitHub Profile Viewer

[Live](#) — [GitHub](#)

- Built a React application to search GitHub users and display profile and repository data
- Integrated GitHub REST API with proper loading and error handling states
- Managed global state using Redux Toolkit for predictable data flow
- Improved user experience with responsive design and conditional rendering

EXPERIENCE

Besant Technologies (Frontend developer)

July 2025 – Present

- Built responsive user interfaces using React and modern JavaScript (ES6+)
- Managed complex application state using Redux Toolkit and React Hooks
- Integrated REST APIs to dynamically render data and handle asynchronous operations
- Implemented client-side routing using React Router for seamless navigation
- Structured components for scalability and improved UI performance

EDUCATION

B.A. Economics

2021 – 2024

Jamal Mohamed College, Trichy

CERTIFICATIONS

React.js Development — Besant Technologies

Web Designing — Besant Technologies
